# Theatre for One

## UK's Ensemble of Theatre for One Person

### Street theatre with a difference

**Theatre for One** is an innovative idea developed in the UK by Lempen Puppet Theatre Company in which audience members interact with a performer on a one-to-one basis and the story is short and simple.

The performance has an element of intrigue for surrounding public as they see the external view of: looking through a periscope into a man's apparently pregnant belly; a person with their head inside a lion's mouth; a giant ear or a diver's helmet. Inside the pregnant belly we see a disco dancing baby, inside the lion's head we find out the secret of his last dinner. There is a surprise inside each and the waiting public watches the individual reactions of each audience, waiting with curiosity for their own exclusive performance.

## **TECHNICAL AND SHOW INFORMATION**

### **Running Time:**

Each short performance lasts approx. 3 minutes. Each performed to only one person at a time (plus curious onlookers!). The shows are usually performed as an ensemble of between 2 and 5 pieces at the same time and each piece can play up to three hours in any one day. Typically this would be played in rotation over a performing day to allow for performer breaks.

### **Get In / Get Out:**

1 hour get in after unload at site  
1 hour get out

### **Touring company:**

2 - 5 performers + 1 steward if needed

### **Optimum performance area :**

Each of the pieces will require approx. 2m x 2m, and can be configured in a line, in a circle or as appropriate to the space. The pieces should be sited close together giving a critical mass and allowing the steward to give information, manage queues and onlooking audience.

### **Technicals:**

Self-sufficient (tours with all necessary LX and sound equipment).

*"A simple idea, the best ones often are, created with such loving care and attention to detail that you just have to smile. Sometimes three minutes is all that's needed!"*
